Programming for AI (Spring-2025)
## LAB#07

Prepared by: Abdul Haseeb Shaikh

Objective of Lab No. 7:

After performing lab7, students will be able to:

- Create a window using Tkinter
- Add widegts inside a window
- Create event handler methods

Task#01: Miles to Kilometer Conversion:

sTask#02: Create a login application using Tkinter and Filing

Task#03: Create a random password generator, this asks for the character limit and then generates a password inside a label.

Task#04: Student Database: Create a GUI application using tkinter which asks information for a student and then adds the information inside a file
